

---

I wish to strongly object to the proposals to demolish Sainsburys In Green Lanes for yet more flats for the following reasons:

#### LOCAL FACILITIES

- \* The loss of this extremely popular, busy supermarket will cause local residents to travel long distances to shop-if there are any shops left!!
- \* More flats mean more people-and where are they meant to shop?
- \* The proposed demolition of Sainsburys on the A10 will already affect many residents-we need to keep this very well used Green Lanes store.
- \* Local doctors surgeries are already oversubscribed and almost impossible to get an appointment NOW

YOU CANNOT KEEP BUILDING MORE & MORE FLATS WITH NO SHOPPING, MEDICAL OR EDUCATION PROVISION.

#### ENVIRONMENTAL

- \* in 1986 the Secretary of State allowed planning permission for Sainsburys to be built with the condition that green space was retained for community use.Demolishing Sainsburys would destroy the green space/habitats.

We do need housing-but not at the cost of essential supermarkets.

There are other sites which could be developed ,without destroying the Sainsburys site, for example the ToysRus site.

Enfield was a lovely market town which is increasingly being destroyed by overdevelopment. STOP before it is destroyed for ever.
