

---

I am horrified to discover from local residents there is an intention to get rid of Sainsburys. I have received no consultation regarding this .The impact it will have on my life is immeasurable.

I live on Arlow Road and walk daily to Sainsburys. I utilise Timpsons,Lloyds Pharmacy ,Argos ,Starbucks and I am planning to use Specsavers . Where do you expect me to travel to for my nearest Sainsburys and which offers the same facilities?

I object to the underhand nature of this plan. Why was I not aware of this?

Is Sainsburys not making enough money?

Traffic calming has already exacerbated pollution in this area by increasing journey times and forcing traffic into already congested areas in Palmers Green and Southgate. I will now be forced into my car to access all that Sainsburys is offering. Is this reducing pollution?

The proposal for housing in this way , destroying services and employment is not conducive to creating a sustainable and successful community.It will inevitably create yet more traffic as people have to travel to reach the services mentioned

Why are you planning to cut all the services ? Increasing the resident population in this area will only increase demand for the shops I have listed.

One reason my family moved to this spot was the location and convenience of Sainsburys.

I want to know your justification for this proposal and why you did not write to me directly.
