

I am writing with regard to the above proposal and strongly object to this absolute joke of an idea!

My parents can only walk to the shops now and use this on a daily basis, everyone is being encouraged not to use cars now - true or false???

With all the road closures already in place and ridiculous traffic levels along Winchmore Hill now I cannot imagine what the traffic would be like if this went ahead!

As soon as the unused bike lanes were put in the traffic commenced and hasn't stopped.

There are enough residential homes in this area already - you need to stop and think!

We live in Carpenter Gardens and had a nice peaceful summer until the schools returned - Highfield Road, Green Lanes and Firs Lane are ridiculous in the mornings and afternoons, and all the parents parking wherever they like!!

Sort this problem out before starting another problem!
