

Green Lanes Sainsburies closure

Just wanted to log my objection to this ill considered plan. Who knocks down the only large supermarket in that area to replace it with a huge amount of homes housing people that will need to be fed

If the council hadn't made changes to the local road systems (cycle Lane and local road closures off Green Lane's) forcing almost all traffic onto the main narrower road, it might have allowed easier flows for locals in this area to get to other supermarkets. But you have so navigating Green lanes is already a problem and this will make it worse. I've already stopped shopping in Palmers Green as it's just not easy anymore traffic wise.

This is my local supermarket and I use it several times a week. Please put your existing residents first FOR ONCE.
