

High Rise Tower Blocks in Palace Gardens Enfield Town

As a local resident (Uvedale Road) I strongly object to High Rise Tower Blocks over Palace Gardens. Such a development would ruin the important historical centre of an historic town and does not provide suitable housing for families which is the greatest need.

Furthermore, I do not see how such building could take place without severe disruption to access to shops and the experience of shopping in the precinct, which would cause further damage and dereliction to the town centre. Also, surely substantial excavation would have to take place to provide foundations for the heavily increased weight of such buildings?
