

Redevelopment of Sainsbury's on Green Lanes

---

I'd like to lodge my objection to the ludicrously proposal of the development of large housing in place of the much needed and well used large supermarket in the area.

The type of accommodation being proposed is not what this area needs- and I doubt the current infrastructure that is already maxed would be able to cater to the needs of all the additional residents in this area.

Yes we need more housing- but the right type of housing in the right place with the right facilities-  
The complete opposite that the this proposal would deliver if it was accepted!  
Just stop and think about people, not money —and political power. Please.
