

I cannot believe this has only just been brought to my attention and I strongly object to this proposal for the following reasons

Local Facilities • The loss of a major supermarket in the area will force people to have to drive further. This would especially affect elderly and disabled residents and increase car usage on local roads. • No supporting community infrastructure planned which will lead to an overstretch of existing facilities such as schools, doctors' surgeries etc. • With the Fords Grove car park going and 14% of car parking on Winchmore Hill Broadway having gone, this development will lead to a further loss of revenue to local shops leading to potential closures. Impact on local residents • The increase in vehicles on the road from potential residents of this development, will increase carbon monoxide levels which will impact locals and especially school children at Highfields school.

Environmental • This development will lead to the destruction of habitat and woodlands – the site is home to at least three different species of woodpecker (greater/lesser spotted and green varieties) as well as trees with protection orders (poplars and oak trees) • The green space is especially useful for residents who live in the surrounding flats and do not have gardens • The area is used by families and elderly alike, which contributes to the health and wellbeing of all residents of Enfield

I do feel concerned that such a massive change to my local area can be brought in without prior notification,

I am truly angry and completely against any such development
