

I wish to lodge my objection to the above development on the following grounds:

- The loss of a large major supermarket in the area will force people to have to drive further. This would affect elderly and disabled residents and increase car usage on local roads which are already congested.
- There is no supporting community infrastructure planned which will lead to an overstretch of existing facilities such as schools, doctors' surgeries and leisure facilities.
- The impact on local residents and schools with the increase in vehicles on the road from potential residents of this development which will also increase carbon monoxide levels.
- This development will have an effect on the environment, loss of habitat and woodlands - this site is home to at least three different species of woodpecker (greater/lesser spotted and green varieties) as well as trees with protection orders (poplars and oak trees).
- This green space is especially useful for residents who live in the surrounding flats and do not have gardens.
- The area is used by families and elderly alike, which contributes to the health and wellbeing of all residents of Enfield.
- This development will need to offer housing in keeping with the character of existing housing in Winchmore Hill. Enfield residents require larger, affordable family housing which this development will not be able to offer.
- This development will lead to an over development of the area given the recent and future developments along Green Lanes - Travis Perkins, Capitol House etc.
- There will be construction vehicle disruption and increased building work traffic on a road, Green Lanes, already congested especially at peak times.
- There will be an impact on the skyline of Enfield and not keeping with the existing character of the area.
