

Another shockingly poor idea from Enfield Council. Have you not caused enough damage by your decision to allow THFC take over a large chunk of Whitewebbs public woodlands?

Please take into consideration the knock on effect of knocking down Sainsburys to build all these new homes – new schools will be needed, traffic congestion will increase, poor environmental impact. Traffic flow was made considerably worse by your atrocious and monstrously expensive cycle lanes WHICH NO ONE USES.

I hope enough people oppose this idea and this does not go ahead, Enfield Council never fail to astound me in your poor decisions and general uselessness & incompetence, no wonder residents don't have any faith in you.
