

Objection to SA32 Sainsbury's Green Lanes N21 3RS- page 351 Enfield local plan

---

I strongly object to these plans, there will be

Loss of local supermarket forcing me to drive. This will also affect elderly and disabled residents.

No supporting infrastructure planned so existing facilities will be overstretched

There will be impact on local residents with additional traffic

The development will lead to loss of habitat and woodlands

Green space is used by local residents who have no open space.

The whole plan is a complete disaster and I strongly object
