

OBJECTION TO SA32 Sainsburys

---

OBJECTING again to another crazy and ludicrous decision by the council.

I am OBJECTING to the council on the plan to build homes on the Sainsburys site.

Once this goes where are we supposed to shop. Especially the elderly who can't walk far and prefer to shop rather than sometimes confusing for the elderly to shop online.

If you build more houses the roads will get busier the schools will have more pressure on them with numbers of children. Has this even been thought through or is this just another decision based on money again.

Stop making awful decisions . Care about the environment and the people in it for once.

I don't believe we have rights anymore about stopping decisions like this. We may object and there maybe 3000 petitions signed but you still go ahead with it regardless . No care, no thought . Again Enfield council making terrible decisions without any thought. What is going on?
