
we live in Hadley Wood since 8 years and we are in love with the area. The green that is surrounding the houses is unique and makes the area very special .

We believe that if someone will build flats over this beautiful scenario , Hadley Wood will never be the same and many things will change.

I am the mum of 3 children , and I feel that they are growing up in a very safe place where they can walk freely and they know many families. The idea of a big change like this is quite scary .

I can imagine everything will change and make it more crowded and busy(cars ...)
There will be more buses running up and down because there will not be enough transport with our local
Bus.

Hadley Wood is a car dependent neighbourhood as local public transport links are very poor, local amenities (GP, post office, schooling, leisure) are really lacking and the existing area is prone to flooding due to inadequate sewers/drainage.

The school so also very small and would not be able to take all the new children.. and many kids from the area will not be able to
Join the state school .. and would need to drive to another area.
