

I would like to lodge an objection to this part of the local plan, specifically because of the impact this will have on people who do not have a car (especially the elderly) who will now have to travel much further to go to a proper supermarket. The Sainsbury's also has an Argos, Specsavers and Starbucks which makes it even more useful to the local people, including my parents who walk there to shop, go to the optician and pick up Argos items.

The plan as it is outlined currently would I think have an outsized negative impact on the local community and as such I do not think that it should go forward.
