

Objection to local draft plan p342,361 & 362

---

The Fords Grove Car Park & the other car parks in the draft, need to stay open for residents to be able to shop locally.

The local shopkeepers have already suffered enough, financially, during the pandemic & this would make them bankrupt.

The housing build would overstretch the already overstretched facilities, such as schools, doctors, dentists.

The increase of traffic to local residents, traveling further away, will increase carbon monoxide levels & impact on local residents, especially school children.
