

Redevelopment of Sainsbury's Green Lanes Palmers Green

---

Have Enfield Council done enough damage to this area. Now it seems you want to build flats!!! The cycle lane has caused so much disruption causing traffic to pile up whilst a bus stops. Then you close off roads causing major disruption along Bourne Hill and Aldermans Hill. Now you want to create more disruption by building 299 units. Life in Palmers Green was so much better before you all started disrupting everything with all your plans. The traffic down Hedge Lane is an absolute nightmare especially in the rush hours. Now you want to build flats which will cause more traffic, more inconvenience and difficulty to the elderly and disabled, with no parking available anywhere!!

I have so much more to say but I will stop here as I am too angry to continue.
