

---

I have lived at this address for 20years Sainsbury's being my local shop I help the environment by walking several times a week meeting and greeting the local people .this will all stop nowhere to stop and have a coffee before going home .just think of our community there won't be one your taken it away I had 2 lovely homes been knocked down and putting 6 more .we have a garage that is constantly flooding as there is so much concrete. We need land to soak away the water . So please think about the damage you are doing to our leavy area .
