

I have lived in Hadley Wood for the past 4 years and a member of the Hadley Wood association.

I value all the green spaces with the area and was drawn into Hadley Wood as it is surrounded by green belt which protects the special character of the area. I therefore object to the proposed site allocation which would allow for the development of 160 homes on the Green belt land.

Save our green belt: The green belt must be protected and conserved as it serves vital purposes including separation from Barnet and Potters Bar.

This is an unnecessary destruction of the green belt.

Increased housing in Hadley Wood is sustainable development.

Environmental: how can developing on this beautiful field assist the council in meeting its own climate change action plan? Why is the council seeking to concrete over this field? surely the field contributes more to fighting climate change than developing for housing.

I therefore urge the council to change the local plan to retain the green belt in this location and remove the site allocation.
