

Please take this email as an objection to the local plan in subject above.

A reminder this was playing fields used by the community, so at least keeping it as a supermarket it adds to the community . I think Enfield council uses this as a drop in on occasion to discuss local matters as do the police. This was also next to the Police Station now gone too . A quick look at your plans you seem to want to build on several sites where there are supermarkets ?Not everyone wishes to shop on line , and surely this is forcing people to drive further to do their shopping. Oh, hold on you can't drive now as all the roads are blocked , which also means deliveries can't get through.

I have lived in Enfield all my life, this is the worst state I have ever seen it , pollution , rubbish, traffic, crime, lack of services – How will building more homes help this – How about tackling the current issues by making Enfield safer and a better place to live. How about starting with sorting Palmers Green out the worst I have ever seen it . A High street which will soon be a no go area. Sort the crime out , help those that need help and support those that work hard pay tax and want to live in this borough.

If the place is undesirable who would want to live here anyway – New housing at the Fox and Capital House , yet Dr surgeries and services already over run. Where does this stop

I guess most of Enfield council don't live in the borough or are oblivious to how bad it is out there. Or more likely just don't care – There are bigger priorities for this borough to sort out and more housing is not high on the list.
