**Subject:** Enfield green belt

Part 1.

I strongly object to Enfields Green Belt being destroyed at Crews Hill by the proposed building of housing estates.

As it stands this area is in my opinion is becoming overpopulated.

As the leader of Enfield Council surely you can bring to the attention of the necessary bodies that we need our garden centres and open spaces.

Part 2.

Something else that should be brought to your attention is the tire business at the junction of Malvern Rd and Ordnance Rd. This is now a potential death trap with hundreds of tires on their roof.

They also cause obstruction to traffic.

Part3

Another thing that is causing a problem in Malvern Rd is the suspected illegal business at 24, Malvern Rd.

I hope I can count on your support
