

Draft Local Plan - Site SA45 (Land between Camlet Way and Crescent West, Hadley Wood) and
Intensification Zone around Hadley Wood station

I have lived in Hadley Wood for 18 years. I find the proposed plans for development totally inappropriate for my family, neighbours and visitors.

My objection to these plans relates to:

1. Significant negative impact on the character and heritage of this quiet green neighbourhood which includes a number of Conservation Areas
2. Noise, traffic and air pollution caused by the gross over development and overpopulation as set out in the plans
3. Destruction of an important green belt area separating Hadley Wood from the M25
4. Further intensification and overpopulation in and around Hadley Wood train station and local primary school with significant negative impact on quality of life for current residents

The current plan lacks the procedural and intellectual rigour to justify such a development. It is a gross miscalculation of the supply and demand needs of for housing within the area and associated knock-on effects.

Could you please remove this proposed plan as soon as possible.
