
Response to the Draft Local Plan Reg 18 Consultation 2021

I am writing to express my opinion about the crematory that you are planning to build in the wetlands park playing fields (Firs Farm Wetlands (Site ID SA59)), according to draft policy DM BG10 in the Draft Enfield Local Plan.

I think that this idea is absolutely absurd. Firstly, there are multiple football pitches in the area that you are planning to build. Where are the local residents going to play football and sports?

Secondly, there are homes very near the area you are planning to build on. How would you feel if you knew that there are bodies being burnt just across the street?The idea is not very family friendly.

Thirdly, there are multiple schools around the area including Winchmore School where I study and it's not very appropriate for children to have to hear or even know that something so terrible is happening so near. Also, it is not good for people's mental health or physical health as they would be breathing in the pollution that you would create. There are endless reasons as to why the idea is completely illogical and unreasonable.

I hope that you understand what you are taking from the local residents and rethink this preposterous idea.

Thank you.
