
I strongly object and vehemently oppose your plans for Fords Grove Car Park N21 and the Crematorium plans for the Wetlands.

1. Plans to build on Fords Grove Car Park.

- The area is severely lacking in parking as it is
- You will ruin the area by building unsightly and ugly flats next to a green space
- You will create further traffic in the area
- Local businesses, residents, walkers, dog walkers, sports facility users, nursery attendees and more ALL rely on this public parking.

Please stop wasting residents money with these schemes, you have ruined the area already with the misplaced bus stops and ridiculous LTNs and not to mention the utter abomination of the cycle lane.

2. Plans to build a crematorium on Firs Farm Wetlands

We have a beautiful open green space which is very rare in this area, we use this area twice a day, every day, we love it, our children love and our dog love its
A huge crematorium will ruin this space, will again create traffic and pollution and take away a large chunk of land that is so loved by the hundreds of people that use it EVERY DAY.

PLEASE STOP INTERFERING WITH OUR LOCAL AREA, NO ONE LIKES ANY OF THESE SCHEMES

Please note that just because the majority of people don't take the time to object in writing it doesn't mean that those who don't are in favour. I urge you all to consider **US** the local residents carefully before you chip away at our open spaces, our liberties and our lives.
