

We are writing to strongly object the proposal of a Crematorium on the above site.

The clue is in the title 'RECREATION GROUND'. This area is well used by the local community, football clubs, cyclists, runners, dog walkers and nature lovers.

This is the only piece of green space in this part of Winchmore Hill and is essential for the local community. In particular, the young people, as they can play football, cycle, run, play tennis etc. They have already lost a Skate park due to the extension of Church Street Cemetery, which has not been replaced and there are no other amenities for youngsters in the area.

A crematorium will create more traffic on an already busy road, due to Winchmore School and the new bus route.

The land opposite the current crematorium has laid derelict for years, surely this would be a more appropriate site.
