

---

I am writing to object to the Council's draft plan for the 'conversion' of the recreation fields at Firs Farm for crematorium use. Firs Farm has provided a vital recreational ground for residents of the London Borough of Enfield. It has improved the health and well-being of our Borough, in line with the Enfield Health and Well Being Strategy. This has been particularly important during the recent difficult periods of lockdown over the past 1.5 years. Please would you ensure that this recreational ground is protected for the health and well-being our present and future generations in the Borough.
