

Re: Objection to SA32 Sainsbury's Green Lanes

---

Objection to SA32 Sainsbury's Green Lanes N21 3RS Redevelopment of supermarket and car park to mixed use homes and non residential floor space

This scheme is ridiculous

- 1) We will lose many trees and green space around Sainsbury's as is.
- 2) We will be left without a large supermarket in the area AND another 299 households all of whom will descend on Enfield Town and Palmers Green at peak times and in areas that have existing traffic problems anyway, creating pollution, congestion, misery etc
- 3) This potentially at the same time as a number of other large scale developments at Whitewebbs and Crews Hill.
- 4) Many elderly locals will be left without a valuable resource (Pharmacy, coffee shop, recycling, Key cutting, shopping Etc)
- 5) Not to mention the needless disregard for sustainability of junking a perfectly good well placed building.

I'm amazed and disgusted
