

I object of this new housing development in Winchmore Hill especially the disappearance of the Sainsbury's supermarket which is very important and necessary for the residents of Winchmore Hill and the surrounding areas.

I am a resident of Winchmore Hill for the last 48 years and during the last recent years I witnessed certain developments which took away the normality of the area, for example New River View and the creation of the cycle lanes which causes pollution, congestion and terrible delays.

I hope you take my comments into consideration.
