

---

I am writing to object to the following Policies: SP PL10, pages 80-87, and Figure 3.11; Policy SP PL9, pages 77-80 and Concept Plan Figure 3.10; Policy SA45: Land Between Camlet Way and Crescent Way, Hadley Wood, page 364; Policy SA54, page 374; and Policy SA62 page 383 and SP CL4 pages 277-279 – all of which propose the designation of Green Belt for housing and other purposes.

Green Belt land is an important amenity for the residents of Enfield and many who use the space come from parts of the borough (and further afield) that are densely populated to obtain some relief and enjoy the open spaces.

The green belt helps with reducing the impact of pollution from the crowded and heavily used roads that run through the borough.

The proposed developments, particularly Vicarage Farm border onto roads that are already crowded, without much scope for expansion, and adding to this will exacerbate the problems i.e. pollution, business disruption, delays.

Developers favour the green belt as its easier and more profitable, that does not mean we the residents of Enfield need to support this and instead should be looking to force the use of brown field sites to their fullest extent before we consider the destruction of the green belt. Homes are needed but there are other options than the ones being proposed.
