Objection to SA32, Sainsburys Green Lanes N21 3RS. Page 351 of Enfield Local Plan: Redevelopment of supermarket and car park to mixed-use homes and non-residential floor space.

I have been alerted to the Council's plans to demolish the Green Lane Sainsburys and wanted to add my voice to that of other locals.

The store is an invaluable part of the infrastructure of this corner of north London, especially during lockdown.

The loss of a major supermarket in the area will force people to have to drive further. This would especially affect elderly and disabled residents and increase car usage on local roads. No supporting community infrastructure has been planned which will lead to an overstretch of existing facilities such as schools and doctors' surgeries.

With the loss of this and other local parking amenities, it will damage local shops, causing possible closure and loss of further suppliers.

More cars from potential residents of this development, will increase carbon monoxide levels which will impact locals and especially school children at Highfields school.

This development will lead to the destruction of a green space and woodlands used by families and elderly alike, which contributes to the health and wellbeing of all residents of Enfield.

This development will lead to an over development of the area given the recent and future developments along Green Lanes. It will cause disruption and increased building work traffic on a road already at over capacity.

Please put the community first and re-think this development.
