

Sainsburys site redevelopment.

---

I was absolutely shocked to hear yet another of Enfield Council's brainwaves. How do they think old people who have been shopping from there for many years will be able to shop, without incredible inconvenience and pain?

The effect on our roads, already devastated by the cycle lane disaster will be profound. Our local services... bus, doctors surgeries and on local businesses will be another hammer blow. With the introduction of cameras on routes that people always used now collecting fines right left and centre, is this another way of collecting more revenue with council tax rates? It is shameful what they are doing to our Borough and should be shown the door as quickly as possible.
