

I have lived in Hadley Wood for 20 years and wish to object to the development of the area on planned site SA45.

* Green Belt must be protected, conserving green space for now and future generations. Green Belt land helps air quality and biodiversity.

* I firmly believe that it is wrong to develop Green Belt land when brown field sites still exist, or are about to become available.

*This plan does not lead to Sustainable Development. The local schools are over subscribed. Trips to GP's and shopping areas require a car journey. Car journeys made by an increased population will add to traffic pollution and congestion. Local public transport does not fulfill total needs, requiring residents to use their car.

Please can you remove this proposed site allocation from the next edition of the Local Plan and retain the Green Belt status.
