

---

It has come to my attention that you are planning to knock down and build houses on the sites of Tesco Southbury Road and Sainsbury's in Winchmoe Hill. Really?? Do we need all that new housing and are you going to provide the infrastructure to go with these proposals. I strongly object to the building on our green belt and on our supermarkets as you are killing the wildlife and upping the pollution from all the extra cars this will bring. My asthma has been very bad, since the opening up after lockdown and Drs say this due to pollution.

This is a total disgrace and I am seriously thinking of moving from Enfield. I have lived here since 1983, the crime is going up, as well as pollution and your hike in business rates is killing our butchers and independent shops.
