

I recently discovered this beautiful parkland but to my horror discovered, too, the monstrous proposals Enfield Council have in mind for it. Have they not heard of the Climate Change Crisis? Do they wish to contribute to it by building on, or affecting at all, this wonderful area of natural parkland, which acts as a barrier between the the pollutants pouring off the M25 and Enfield residents, and helps soak up CO2 gasses? Have they really such appalling taste as to tear up this wonderful natural grassland and replace it with plastic grass? Are they really willing to destroy this wildlife habitat and so contribute to the destruction of the biodiversity that actually sustains the eco-system, which in turn sustains us human beings? Do they really wish to deprive local children and adults of access to this unspoilt area of natural beauty? Do they really wish to commit this monstrous environmental crime, this wonton act of environmental vandalism? Does Tottenham Hotspur Football Club wish to be associated with this horror? Does Enfield Council want to either? Please come to your senses and wake up to the real value of what you have? Talk about "Found paradise and put up a parking lot/Cut down all the trees and put them in a tree museum/Charged all the people a dollar and a half just to see 'em/Don't it always go you don't know what you've got till its gone/Found paradise and put up a parking lot." Did Joni Mitchell write these words for nothing? For God's sake philistines DESIST. I hope this helps you come to your senses.
