

---

This is to log my objection to the proposals to build on green belt and car parks.

ANY non-brownfield sites should come off the table. It is NOT green to concrete over even more areas of open space. Urban sprawl MUST be stopped.

Carparks must be preserved for the benefit of local shops or parking restrictions in the surrounding areas MUST be relaxed. Not everyone can cycle or walk to their local supermarket or use the internet for home delivery! Lack of parking will destroy the local High street.

Making more and more densely populated areas is of benefit to noone. There are not enough facilities eg GP's, to comfortably accommodate the current population level. This will NOT make homes more affordable for offspring. People will have to accept that homes are NOT 'affordable' and adjust THEIR lifestyle and expectations. We are FULL, END OF.

I did not have children or buy my own home because I couldn't afford to, that's just how it was/is. There are too many people, we can't keep expanding! If there aren't enough bodies to do the work, we have to do without or work more efficiently! Tough life decision. Building building building MUST stop. Better streets? A joke.
