
I am writing to **object** to the current local plan proposal to use any part of Firs Farm as a site for a crematorium.

Firs Farm has provided the community with so much more than just a space to be outside - it is reflective of the local community, a way to come together. It is an incredible asset and to even have to write this email objecting is offensive and insulting to all those who have worked so hard to make it what it is today and for all those who enjoy it. It provides salvation to so many who are suffering.

The proposed space being considered is not fit for a crematorium which is next to schools and a hospice site and is already a developed site. There is also already a cemetery in the immediate vicinity and therefore there should be balance with community needs. There isn't another site like the Wetlands and for what it is striving to be i.e. a sports facility and community hub.
