

---

I strongly object to high rise buildings as they are the arbiters of crime and drug use and deny anyone having their little bit of open space to call their own and to help in mental health. The ancient town of Enfield Town should not be ruined by high rise buildings in the centre as they would totally dominate and overlook the ancient areas around Gentlemans Row, etc.

You simply cannot build on our greenbelt of Crews Hill and Vicarage Farm, there is not the infrastructure, amenities, transport, schools, doctors surgeries, etc. etc. to support such mass building plans. Its would totally alter the ethos of open spaces where we can breathe and be next to nature. The proposed building plan is a total desecration of anything good.

Please please use your sense of decency and ban these awful proposals.
