

Objection to Sainsbury's Green Lanes development

---

I'm very upset to have just found out about plans to demolish Sainsbury's in order to create a new estate. Firstly this is a terrible idea, how is an already over stretched area supposed to absorb nearly 300 new families? There is a new block built on green lanes. Fords Grove car park is going. This is impacting our community unfairly.

I have to wait over 3 weeks for a doctors appointment and I'm in a black spot for secondary schools. I live in grange park and this is my closest supermarket.

Secondly, if the council are pushing people towards a greener environment, this is pushing people to drive further for everyday essentials. Sainsbury's can be nearly a one stop shop. Having 2 young children it covers most things. With this gone, driving restrictions in place what are we to do?

This stinks of corrupt deal making in order to line a few pockets with no regard for the area. Surely us residents are being pressured enough as it is without having to go along with this ridiculous plan.

Please reconsider immediately
