

Objection to SA32, Sainsburys Green Lanes N21 3RS. Page 351 of Enfield Local Plan. Redevelopment of supermarket and car park to mixed-use homes and non-residential floor space.

---

I am emailing in connection with the above proposed redevelopment.

As a Winchmore hill resident I wish to object strongly to the proposed redevelopment of the Sainsburys site on Green Lanes which would replace the current supermarket with 299 houses and 13,325 sq ft commercial space.

I am particularly concerned about the following negative impacts of the proposed redevelopment on the local area:

- I am concerned about losing the Sainsbury's supermarket which I regularly use and is within walking distance. Furthermore, the loss of a major supermarket in the area will force people to have to drive further. This would especially affect elderly and disabled residents and increase car usage on local roads.
- I understand there is no supporting community infrastructure planned which will lead to an overstretch of existing facilities such as schools, doctors' surgeries etc.
- The increase in vehicles on the road from potential residents of this development, will increase carbon monoxide levels which will impact locals and especially school children, including my son, at Highfields school
- This development will lead to the destruction of habitat and woodlands I understand that the site is home to at least three different species of woodpecker (greater/lesser spotted and green varieties) as well as trees with protection orders (poplars and oak trees)
- We regularly use the green space surrounding Sainsbury's and I understand it is especially useful for residents who live in the surrounding flats and do not have gardens.

I trust that my views will be taken into consideration as part of the consultation on this proposed redevelopment.
