

---

Good evening

I'd like to give my opinion to the leaflet I have received informing me that the green belt land at vicarage farm and Enfield road is to be destroyed for 6000 new homes .

1 I chose to place my child in the local senior school so that she would have fresh air to breath as she has asthma

2 more homes would pollute the air cause more harm to her health

3 having to travel out of area for other green land would cause more pollution

These are the reasons I will not be voting again for labour . All promise get broken,and not thought to its residents that have lived here for many year

Disgusting

Regards
