

---

Dear Sir/Madam,

I object to Enfield Council's proposal to replace St Anne's Catholic School with high rise flats. Enfield cannot afford to lose a school and all the school places that it accommodates. Also it will be detrimental to the environment ecologically, by losing another green space and hedges that provide a habitat for many birds and insects. It will be an eyesore on the edge of our beautiful, historical town, and will also cause traffic flow problems in Lincoln Road and Chalkwell Park Avenue.

I do not understand why the high rise flats at Ponders End were demolished, when they could have been refurbished.

There are plenty of brownfield sites in Enfield that can be used for housing, instead of removing essential buildings and green spaces.

Please reconsider your proposal, and preserve Enfield's historical buildings, green spaces, schools and environment, for the wellbeing of all the residents, visitors and wildlife.

Yours sincerely,
