

---

I am writing to object to the proposed plan to redevelop this carpark and supermarket into residential properties.

I live locally and would lose access to a local supermarket which can be walked or driven to as required. This supermarket is used by a wide community, is accessible by bus and cycle lane. To close this site would force shoppers onto the roads to further afield and for those with out transport would mean difficult journeys to alternative supermarkets (none in locality). The existing area around the site is a community space and should remain so.

Local resources such as GP and schools are already stretched to their limits. How would the needs of the new residents be accommodated in this situation. The traffic on this route is already impaired due to the changes in traffic flow and restrictions. To introduce this number of properties in the area would have serious effects on traffic flow. Local jobs would also be lost.

There is currently little parking available for those wishing to shop in the winchmore hill \green lanes area and more residents in this small area would have a detrimental effect on this.

So I wish to place my objection to this proposal.
