

---

Good evening,

I would like to object to the proposal to redevelop Sainsbury's on Green Lanes. This is where I do my weekly shop and if it was not there, I and other Winchmore Hill residents would have to drive much further to do our shopping, increasing traffic and pollution.

Building a huge number of flats with no supporting community infrastructure will lead to an overstretch of existing facilities such as schools, doctor's surgeries, dentists, etc. And it will remove car parking which is vital for the local shops, having had almost all the parking on Green Lanes removed already.

Kind regards
