Dear Sir/madam

I am rewriting to object to the proposed plans to redevelop the Sainsburys site on Green Lanes with 299 houses and 140,000 sq ft commercial space. Having lived in Winchmore hill my whole life I feel there will be an impact on the environment, traffic and local infrastructure.

The current infrastructure is already over stretched with schools having to build more buildings to accommodate the large number of students.

We only have two A&Es in driving distance North Middlesex and Barnet. Doctors are impossible to get an appointment with.

Roads have had one way restrictions put in place in Southgate and Palmers green which has made traffic worse and therefore negating the original plan to help with pollution, all of this is an issue with the current population, add in another 300 households and my above points will be impossible if not unbearable for the current residents.

I believe that no more houses should be built without an outline of how hospitals, schools and doctors surgeries will accommodate influx of people and new households.

I look forward to hearing from you.
