

---

Hello

I'm aware of plans to replace the Sainsbury's with 300+ residential properties and I object.

1. Overcrowding has become a growing concern for residents of historic Winchmore Hill. Traffic, failed traffic light systems, litter and noise are all contributing to a deteriorating neighbourhood.
2. Sainsbury's plays a massive role in serving the locals. It's accessible by foot and is still fundamental to serving those in need during Covid.
3. We have schools just by this area, more houses more congestion and traffic will be dangerous for our students.
4. It's a conservation and historic area. There is important green space around there. These plans will destroy it.
5. Through various botched vanity projects and initiatives, the traffic on green lanes and surrounding areas is much worse ironically with fewer cars (because of the disincentives to drive). This will be just another contributing factor.

This is insane. Please stop.
