

---

I am writing to add my objection to the proposed crematorium on firs farm wetlands site. Under plan SPCL4.

Over the years the council have been very busy making the wetland site at firs farm. I see the addition of a crematorium on the site as a massive mistake.

Where does the council stand on the separation of Blue and GREEN SITES.

This is a residential and recreational area. And now an area of natural interest ,

I feel that such a facility should also be kept away from the schools in the area
