

---

I strongly object to this plan that Enfield council are considering doing. My reasons are :

The impact it will have on the environment, the woodland area is enjoyed by many winchmore hill residents and it has many varieties of rare birds and trees. It is an area which many families without gardens use.

The loss of a major supermarket will make people drive further and will have an impact on the elderly and disabled. It will increase car usage on local roads.

It will have an impact on existing facilities such as schools, doctors and dentists.

More cars on the road will increase carbon monoxide level which will have an impact on local residents health particularly local schools such as Highlands.

Thank you
