Objection to SA32, Sainsburys Green Lanes N21 3RS. Page 351 of Enfield Local Plan:

I live in flats that don't have a lockable bin area so people can contaminate any recycling bin which means we have to pay to have them emptied, so I have to use the recycling facility at Sainsbury's

The other supermarkets in the area don't have enough disabled parking, Sainsbury's has three times as many spaces as the others. I can always find a space at Sainsbury's.

Whilst this will be a huge inconvenience to us all, there will also be wider impacts on the environment, traffic, local infrastructure etc.

The loss of a major supermarket in the area will force people to have to drive further. The smaller supermarkets don't have the wide choice of products and stock that the likes of this supermarket has.

This would especially affect elderly and disabled residents and increase car usage on local roads.

No supporting community infrastructure planned which will lead to an overstretch of existing facilities such as schools, doctors' surgeries etc.. Along with the number of jobs lost by this closure and the extra people living in the new 299 properties also needing jobs.

With the Fords Grove car park going and 14% of car parking on Winchmore Hill Broadway having gone, this development will lead to a further loss of revenue to local shops leading to potential closures.

The increase in vehicles on the road from potential residents of this development, will increase carbon monoxide levels, already made worse by the LTN's in the area which will all have an impact on locals and especially school children at Highfields school.

This development will lead to the destruction of habitat and woodlands – the site is home to at least three different species of woodpecker (greater/lesser spotted and green varieties) as well as trees with protection orders. The green space is especially useful for residents who live in the surrounding flats and do not have gardens. The area is used by families and elderly alike, which contributes to the health and wellbeing of all residents of Enfield

This development will need to offer housing in keeping with the character of existing housing in Winchmore Hill. Enfield residents require larger, affordable family housing which this development will not be able to offer. This development will lead to an over development of the area given the recent and future developments along Green Lanes - Travis Perkins, Capitol House etc. There will be construction vehicle disruption and increased building work traffic on Green Lanes, already congested especially at peak times.

There will be an impact on the skyline of Enfield and not in keeping with the existing character of the area.
