

---

Dear Sir/Madam,

Thank you for the opportunity to respond to this important consultation, which will affect the lives of residents across the borough.

I am writing to object to the following Policies: SP PL10, pages 80-87, and Figure 3.11; Policy SP PL9, pages 77-80 and Concept Plan Figure 3.10; Policy SA45: Land Between Camlet Way and Crescent Way, Hadley Wood, page 364; Policy SA54, page 374; Policy SA52 page 372; and Policy SA62 page 383 and SP CL4 pages 277-279 – all of which propose the dedesignation of Green Belt for housing and other purposes.

Most of these sites are part of historic Enfield Chase, which played an important role in the development of Enfield. The remaining parts of the Chase are unique in the southeast and a rare and valuable landscape asset. The views across this stretch of land down to the city are irreplaceable and would be permanently lost by building on this area. The loss of these sites would cause permanent harm not only to the Green Belt, but also to the very character of the borough. Vicarage Farm is crossed by the Merryhills Way footpath, much-used by Enfield residents and others for exercise and relaxation and the physical and mental health attributes of the footpath would be destroyed by development. Although edged by green fields, this section of Enfield actually has no park and building on the surrounding green fields would therefore significantly reduce access to open space for the residents. The farmland could be put back into productive use growing local food for local people. Crews Hill is equally important to the borough and should not be destroyed. Its garden centres and other businesses provide employment and a resource for people from Enfield and beyond. Instead of losing Crews Hill for housing, its horticultural activities should be encouraged and enhanced so that it can once again be a hub for food and plant production. The existence of extensive green belt and of Crews Hill horticultural centre are key parts of the borough identity (heavily promoted by previous administrations as "London's greenest borough". The proposed loss of the green belt sites nearest to the centre of Enfield and one of the area's key attractions will significantly affect its character and charm.

I also object to Policy DEG: Tall Buildings. Tall buildings are inappropriate in most parts of Enfield and the Council even admits in 7.6.4 that alternative building forms, such as lower-rise mansion blocks, can achieve a similar number of homes as tower blocks. The proposal to build tower blocks in many parts of the borough will change its character from that of a suburban outer borough with low and mid-rise developments. The proposed tower blocks will in many cases overshadow existing protected development and are unacc

While I support housing development and support the ambition to meet Enfield's housing needs, I strongly object to the proposal to release Green Belt for housing or other purposes. It has been shown that Green Belt development does not provide the affordable housing required. In addition Green Belt housing will lack easy access to amenities, increasing dependence on cars and further congesting roads that already struggle to cope with current traffic levels. I believe that there are alternatives available to meet housing targets and that the Green Belt is a precious resource that should be protected and preserved for future generations. It is too valuable to lose for all the many environmental, ecological, economic, public health and other reasons that have been identified, especially during the recent pandemic. The Council has a duty of care for the Green Belt, in accordance with the London Plan and the National Planning Policy Framework [NPPF], and any intentions to release parts of it should be taken out of the local plan.

I do hope the council will reconsider their proposals and find something that is able to preserve the borough's character and is more in keeping both with the overall London plan, and the national move to more sustainable developments.

Thank you for your time and consideration,
