

---

Dear Sirs

I write to object to the above mentioned planning on the basis of the loss of a major and local convenient supermarket which will force local residents to use other stores further away. This will be an inconvenience and time consuming. It will drive local residents out of the area.

The additional housing will add to traffic and congestion in the area and out into the high road which is already highly congested and polluted.

The supermarket is convenient for the elderly and the vulnerable along with young families. Residents use the supermarket as a place to meet and catch up.

By granting this permission and allowing this project you are taking away a local convenience used by locals.

I strongly object to this development.

Regards
