Hello

I do not agree with the new houses you want to develop in Hadley Wood (SA45). I love going for walks and bike rides with my sister, Mum, Dad and Grandma. I also like walking my Uncle's dog and looking at the fields and this will all be taken away if these buildings continue.

I love picking blackberries, looking at the plants, trees and birds and all this wildlife and the environment will be impacted. How is this development protecting the countryside so that all children and future children will be able to enjoy it if we destroy it and build on it?

I walked with my Mum, sister and Grandma every day during lockdown and this will impact them too if this is all taken away as we really enjoyed doing this together and I looked forward to it every lunchtime.

Please don't let this development continue and allow me to enjoy roaming in Hadley Wood for a long time to come.
