

---

Hello

I was born whilst living in Hadley Wood and want to object to the SA45 development. I visit often as my mother, sister, brother in law and my nieces still live there.

We love walking our dog in Hadley Wood. We live in central London and love escaping to Hadley Wood to enjoy the countryside as we don't get to enjoy it in London. The green countryside, fields and trees are an amazing feature which has slowly but surely been destroyed in London. We need to protect the green belt as there will be no countryside if we don't respect this protected and valued land.

I want my son to be able to enjoy the countryside like I did as a young boy and if we don't protect the countryside & green belt protection now, then this will not be available for future generations. There is also the negative impact on the local wildlife and conservation areas.

Please remove the SA45 development from the plans and protect Hadley Wood.
